

THIS IS WG MEDICAL.

WG medical – Your PPE specialist

WG medical specialises in the procurement of personal protective equipment (PPE) and medical accessories from the Far East.

Through direct cooperation with various Chinese corporate groups and factories, **WG medical** is in a position to purchase all products without brokers and adapt them individually as required.

The staff of **WG medical** in Shanghai coordinate all processes directly on site and are optimally networked in order to ensure fast and reliable availability of all **products at fair prices, even in difficult times.**

Our services at a glance:

As a full-service provider, we offer our clients everything from a single source - from sourcing, price negotiation and quality checks to the entire logistics process FOB, CIF, DDP...

- | | |
|--|---|
| 1. Sourcing | 7. Transport incl. prior document check |
| 2. Product selection and the setting of standard | 8. Inspection of incoming goods |
| 3. Detailed agreements (individual outer packaging, packaging unit etc.) | 9. Shipping (flights, ships, charter, trains) |
| 4. Production | 10. Import handling |
| 5. Quality control | 11. Warehouse logistics |
| 6. Supplier management | 12. Distribution |

The advantages of WG medical:

- + **A high level of flexibility** as a result of various strong partners in Europe and Asia! Through a slim structure and trusting strategic partnerships with renowned experts on both continents WG medical can help where others have long since given up.
- + **Everything from one source!** One contact person - from consultation, to the receipt of goods in Germany. The entire sourcing process is thought out in a way that is just as transparent as the production process, logistics and distribution at the destination. Thanks to our network, we are able to offer you outstanding quality with the best value
- + **Orders of any size!** Whether 150 million masks or 100 syringes – we attach the same value to every order and can handle very large, as well as very small quantities!
- + **Flexible payment conditions!** Thanks to our close cooperation with various bank- and investors in Europe and Asia, we are always able to find the most attractive payment conditions as well as payments with the least complications.

Why WG medical?

WG medical specialises in the procurement of PPE and offers the following services:

- + Sourcing: Identifying the best manufacturers and suppliers for the individual requirements in terms of certification, quality, quantity, specification and logistics.
- + Ensuring the specified requirements and contractual details.
- + Determining delivery dates with manufacturers, monitoring production and the time schedule as well as quality acceptance in the factories BEFORE the goods leave the factory.
- + Preparation of all documents for export and handling of all aspects related to transport.
- + Carrying out transportation to the end customer.

PPE procurement for the German Ministry of Health (2020):

- + Procurement of almost 120 million FFP2 and 3ply masks for the German Ministry of Health between March and June 2020 through the WG medical subsidiary, WG digital.
- + Negotiations with the Chinese partners and overall handling of the orders in cooperation with FIEGE Logistics and EURASIA.
- + Overall handling and coordination of all processes incl. changes to the contracts and changes with regard to the type of goods and their quantity.
- + Reliable and high-quality delivery at top prices in comparison with compared to similar competitors.
